

## // WHY I APPLY

# I am familiar with Apple technology and Apple enterprise cultures. When I was 16 I touch first Apple products, though that, I deep know all Apple products features and function even in pro area such as development, I was very honored has been invited in WWDC 14 and though that conference I was growing up as pro Apple developer.

# Base on 1 years experience in Apple Store as a Technical Specialist focus on fix relationship with customers, I am familiar with all functionalists of Apple Store teams and operational concepts.

# During 2 years working experience for lead team, I am familiar with team developments and I believe I have ability to raising teamwork and enhance the team cohesion. I do have ability to solve technical issue and customer issues at the same time.
