```

JOURNEY IN APPLE

Kunming, Yunnan, China

Join [Apple Worldwide Developers Program - 2011](#)

I learned Objective - C when I was in high school and join Apple developer program to develop my own apps and successfully distribute on App Store. Up to now, already have more than 100,000 + of downloads.

New York, NY, U.S.

Participate [iOS 7 Tech Talks of Game Developer Day - October 15, 2013](#)

When I was young, I love computer science and coding, therefore I chose computer game development when I was in college, I am very interested in developing games on iOS devices so, I enrolled iOS 7 Tech Talk and participated in discussions with Apple engineers on these events. iOS 7 is a milestone in Apple's history so I thought this event was very helpful.

San Francisco, CA, U.S.

Participate [Worldwide Developers Conference \(WWDC\) 2014 - June 2-6, 2014](#)

Thanks for Apple giving me a great chance to join WWDC, I brought my own app and code talk to Apple's engineers during that pleasant week. I learned how to create perfect code and how to provide a better user experience from Apple's engineers and that will become my milestone in my career life.

Kunming, Yunnan, China

Join [Apple Kunming - Nov., 2016 - Jan., 2018](#)

Join Apple Kunming as a Technical Specialist, and take part in new store opening, learned more about Apple culture, troubleshooting skills and customer focus when I was in Apple Store. During my tenure, I have gained a high rating of customers' evolution, I learned empathy and Apple service steps. At the same time, Apple helped me improve my technical skills to a new level.
